Dear Member/Customer

Reference: Monitoring and Reporting Violation Failure

The Violet WSC water system, PWS ID 1780015 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public Water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination.

This violation occurred in the monitoring period of the 3rd quarter of 7/01/2020 – 9/30/20 2020.

We are taking the following actions to address this issue.

1. Preparing and sending a copy of the DLQOR (Disinfectant Level Quarterly Operating Report) to TCEQ by the 10th of the first month of each quarter.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e. people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have any questions regarding this matter, you may contact Ronald Hoelscher, Manager, at 361-387-3350.
